Вариант задания: 9 вариант

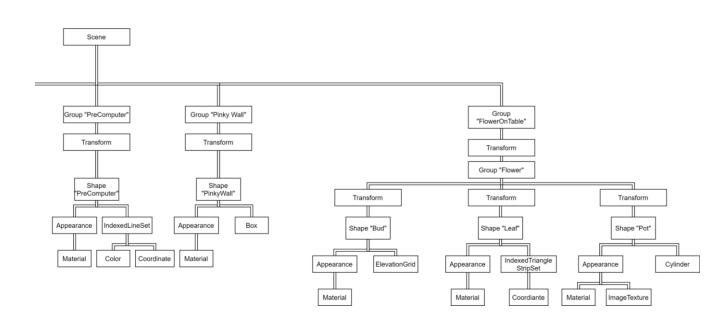

Цель работы: Ознакомление с принципами и приобретение навыков использования узлов сложных геометрических объектов для построения статических X3D-сцен.

Словесное описание сцены: На сцене расположена дополненная композиция из ЛР №1, в сцену были добавлены по заданию — клавиатура, сеть связанных линий, точки, которые повторяют собой вид созвездия большой медведицы, треугольные полигоны, объединенные в линию и повторяющие собой стебель цветка, а также набор полигонов, преобразованных в бутон цветка. Были добавлены текстуры для лампы и горшка. Еще на сцене появился пол, с текстурой паркета.

Граф сцены (дополненный):
